The Portfolio Manager does not assure that the objectives of 'All-Star Portfolio' - CFSPL Investment Approach will be achieved and investors are not being offered any guaranteed or assured returns. Investments through Portfolio Management Services are subject to market risks. The investments may not be suitable to all the investors.
2. Past performance of the Portfolio Manager does not indicate the future performance of the 'All-Star Portfolio' - CFSPL Investment Approach.
3. The Portfolio Manager and the Company has no previous experience/track record as a Portfolio Manager prior to Apr 2017. Although the Company has no previous experience of portfolio management, the Principal Officer and other key management personnel of the Company have rich individual experience in investment management.
4. Investments in equity may be adversely affected by the performance of companies, changes in the economy, government policy, the market place, credit ratings and industry specific factors.
5. Debt and other fixed income investments may be subject to changes in interest rates and/or liquidity, credit and reinvestment risks. As with all debt securities, changes in interest rates may affect valuation of the Portfolios as the prices of securities generally increase as interest rates declines and generally decrease as interest rates rise. Prices of long-term securities generally fluctuate more in response to interest rate changes than prices of short- term securities. Indian debt markets can be volatile leading to the possibility of price movements up or down in fixed income securities and thereby to possible movements in the valuations of Portfolios.
6. Liquidity in the investments and performance of portfolio may be affected by trading volumes, settlement periods and transfer procedures.
7. The PMS will be implemented strictly in accordance with SEBI (Portfolio Managers) Rules and Regulations, 2020 and amendments thereto. Investors are requested to familiarize themselves with these regulations.
8. Appreciation in 'All-Star Portfolio' - CFSPL Investment Strategy can be restricted in the event of a high asset allocation to cash, when stock appreciates. The performance of 'All-Star Portfolio' - CFSPL Investment Approach may also be affected due to any other asset allocation factors.
9. When investments are restricted to a particular or few sector(s) or few companies under 'All-Star Portfolio' - CFSPL Investment Approach; there arises a risk called non-diversification or concentration risk. If the sector(s), for any reason, fails to perform, the portfolio value will be adversely affected.
10. Each portfolio will be exposed to various risks depending on the investment objective, the asset allocation. The investment objective, the asset allocation may differ from client to client. However, generally, highly concentrated portfolios with lesser number of stocks will be more volatile than a portfolio with a larger number of stocks.
11. The values of the portfolio may be affected by changes in the general market conditions and factors and forces affecting the capital markets, in particular, level of interest rates, various market related

factors, trading volumes, settlement periods, transfer procedures, currency exchange rates, foreign investments, changes in government policies, taxation, political, economic and other developments, closure of stock exchanges, etc.

12. Risk may also arise due to an inherent nature/risk in the stock markets such as, volatility, market scams, circular trading, price rigging, liquidity changes, de-listing of Securities or market closure, relatively small number of scrip's accounting for a large proportion of trading volume among others.
13. Investment in securities, whether on the basis of fundamental or technical analysis or otherwise, is subject to market risks which include price fluctuations, impact cost, basis risk etc.
14. The Client Portfolio may be affected by settlement periods and transfer procedures.
15. Any act, omission or commission of the Portfolio Manager under the Agreement would be solely at the risk of the Client and the Portfolio Manager will not be liable for any act, omission or commission or failure to act save and except in cases of gross negligence, willful default and/or fraud of the Portfolio Manager.
16. The names of 'All-Stars' Portfolio - CFSPL Investment Strategy do not in any manner indicate their prospectus or returns, or does not guarantee the performance or return of the plan.
